

New Jersey Highlands Coalition

Action Alert

Join us for an information session on the Susquehanna-Roseland Line!

The Coalition and our partner organizations are sponsoring information sessions to assist you in making effective comments on the Draft Environmental Impact Statement (DEIS). Your written and oral comments and a large turn out at the hearings are a necessary part of a successful strategy. Join us to learn how to make your comments most effectively considered in the Parks Service's decision making procedures.

The information sessions will be held simultaneously on **January 12** at two regionally-convenient locations. We strongly encourage your participation!

East Stroudsburg University

Lower Dansbury Meeting Space

(Located at the corner of South Green St. and Normal St. with ample parking in Lots 20 and 23)

East Stroudsburg, Pa 18301

7:00pm - 9:00pm

East Hanover Municipal Building

411 Ridgedale Avenue (2nd Floor)

East Hanover, NJ 07936

7:00pm - 9:00pm

We have scheduled these information sessions to encourage more public comment on the National Park Service (NPS) released Draft Environmental Impact Statement (DEIS). The Coalition and our partner organizations have reviewed the DEIS and will discuss what the NPS sees as the anticipated environmental and cultural impacts of the 500kV transmission lines project.

Save the Date! The National Park Service has announced 3 public hearings for the Draft Environmental Impact Statement for the Susquehanna-Roseland Transmission Line:

Tuesday, January 24 (Bushkill, PA)

Wednesday, January 25 (Stroudsburg, PA)

Thursday, January 26 (Andover, NJ)

The NPS will accept comments on the DEIS until **January 31, 2012**.
